Lighted Christmas Yard Art Decoration Review

Some folks might assume that when you've seen one inflatable Christmas decoration that you've seen them all. Those of us, who take our holiday decorating seriously though, know that there's a lot to consider before buying any type of outdoor holiday decorations.

That's exactly why I put this **inflatable Santa & Reindeer** review together. I saw this inflatable outdoor decoration, and it really caught my attention. So, I decided that I would find out the details about this decoration and write up a review to help my fellow holiday decorators out.

First Things First

Before we get too far into this *blow-up Santa/Reindeer* review, let's talk about the basics. I'm a firm believer that any outdoor decorations that you buy should be very durable.

If you plan on putting a decoration in front of your home, you'll want to have decorations that you can use for many holiday seasons to come. Fortunately for us, the 4' Airblown Inflatable Santa Clause with Reindeer Lighted Christmas Yard Art Decoration is built out of tough, weatherproof nylon.

That means this **inflatable Santa Claus and reindeer** are built to withstand the elements for many years to come. Typically, decorations like this one will last for many years, as long as you take good care of them and pack them away safely during the off season.

It's a Cute Holiday Decoration

There's nothing fancy about this inflatable Santa and reindeer, but that doesn't mean it's not a very nice outdoor decoration for the holidays.

Santa looks pretty much like you'd expect him to; with his traditional red outfit, the famous hat and his long wispy, white beard. The reindeer looks like a cartoon representation of one of Santa's famous flying fleet. Santa is waving to passersby while resting his free hand on the reindeer.

This inflatable decoration doesn't do anything out of the ordinary, but that doesn't take away from it being a classic-looking Santa Claus that will look great in any type of outdoor setting.

Smaller Inflatable Santa Claus

If you've taken a look around in recent years, you've probably noticed that some of the yard decorations are

absolutely gigantic.

While there's certainly a place for Santas and Frostys, that stand in excess of 12 feet, the [4' Airblown Inflatable Santa with Reindeer Lighted Christmas Yard Art Decoration](#) is a smaller, more manageable piece of holiday yard art.

This particular blow-up Santa Claus stands about 4 feet high. But since it is a smaller inflatable blow-up Santa, this decoration can do something that the colossal Santa Clauses can't – it can also be used as a fun, indoor holiday decoration.
